## EXPERIENCES

Web Developer Intern

**Umbrix**

June 2020 – Present

Remote

Currently working as a web developer intern at Umbrix which is a new startup. I got the opportunity to start something this big from very scratch as being one of the first interns. Currently leading the front-end dev team and mainly responsible for website's UI.

Student Developer

**Crio.do**

January 2020 – April 2020

Remote

Got a hands on practice on networking concepts and file sharing protocols in QBox, And in QMoney I worked on a visual stock portfolio analyzer in which I Refactored code to add support for multiple stock quote services. Summary Report :-

## CERTIFICATIONS & AWARDS

- Stage 2 on Codechef Snackdown'19
- Summer Training at Crio.do .

## CODING PROFILE

[StopStalk](#) :- Highest Rating: 36895

[CodeChef](#) :- Highest Rating: 1852 (4 star)

[CodeForces](#) :- Highest Rating 1450

## PROJECTS

### Blog Webapp

- It is a basic blog web app having all essential functionalities like edit, delete or make a new entry made by RESTful routes.
- <https://github.com/spverma536/REST-blog>

### Restaurant Menu Website

- It is a fully responsive website made by Bootstrap and NodeJS and in the desserts section one can add your own dishes using MongoDB.
- <https://github.com/spverma536/Restaurant-Menu>

### Shopping List

- It is a web page made by basic AngularJS which lists the item. And it also takes care about repeating items.
- <https://spverma536.github.io/Shopping-List>

### Solar Eclipse

- A solar eclipse using just html and css
- <https://spverma536.github.io/solareclipse>
